GENERAL REQUIREMENTS

IRK PROMOTION is the organiser of the event called THE 24 2026 .

These regulations are specific to THE 24 2025 event. No specific rules can be applied without the approval of the promoter and the organiser.

The event is structured with the full rent 'Arrive & Drive' formula with a fleet of karts of the dedicated rental type.

Any participant with the necessary documentation and equipment will be allowed to take part.

These regulations are approved by the organiser.

The organiser reserves the right to amend these regulations at any time. If necessary, such changes will be communicated to participants as soon as possible and cannot be contested.

1. REGISTRATION

Registration for the event must be made through the registration form on the website : www.irkpromotion.com

The price for participation in THE 24 event is: **€ 2640,00**

There will be a 2-hour free practice on the day of the race.

During the optional free practice the teams will be allowed to refuel the kart with the desired quantity. After qualifying, the parc fermé regime applies, i.e. no intervention on the karts will be possible, not even refuelling.

Each participating team must consist of one:

Team Principal: a person responsible for the team towards the organisation. (This may also be a driver and a team manager)

Team Manager: a person responsible for the team towards the race direction. (It can also be a driver and a team principal)

Drivers: a number defined during registration for the event. (Can also be a team principal or a team manager). Obligatory at least one entry on the track for drivers participating in each round.

The organiser reserves the right to refuse the entry of a driver/participant at its sole discretion and/or on the occurrence of the conditions set out in point 2 below.

2. ETHICAL CONDUCT

Maximum safety, fair play and sportsmanship are required of all participants taking part in each event. By signing the Declaration of Liability and the Code of Good Conduct at the administrative check-in, all participants accept :

- Total respect for operational and organisational staff
- Total respect for other participants and any assistants
- Total respect for the infrastructure and equipment available for the event

Failure to comply with these minimum rules may lead the organiser and/or the host circuit to penalise the participant up to and including definitive exclusion from the event or championship.

Each driver is obliged to behave in accordance with the rules and good citizenship.

Each driver and their companions are responsible for their own actions.

Anyone may be expelled if they do not comply with the rules set out above. The organiser may also apply sanctions for any behaviour that damages the image of the championship and the companies involved.

Should one or more of the above situations occur, the participant will not be entitled to any financial compensation.

3. PROGRAMME

The programme is :

Friday 11 September 2026

- H 14:00 Registration office open

Saturday 12 September 2026

- H 07:30 Registration office open (120 minutes)
- H 09:00 Briefing (30 minutes)
- H 09:30 Kart draw
- H 10:00 Official free practice (2 hours)
- H 12:15 Qualifying (10 minutes)
- h 14:00 Start (24 hours)

Sunday 13 September 2026

- h 14:00 Finish
- H 14:30 Awards

4. KART

The karts are provided by the event organisers. The model is the **TBKART R-ONE Sport HP** with Honda 390 c.c. 4-stroke engine of approx. 18 hp. Each kart will be calibrated for the event using exactly the same settings. Customisation of the kart is only allowed in the areas designated by the organisers.

5. REQUIREMENTS AND DOCUMENTATION

All drivers aged 14 years and over are admitted*

Each driver must be equipped with: full-face helmet, overalls (even with expired homologation), gloves, driver's shoes and rib protectors (recommended) in order to participate.

Each driver must be in possession of and provide the following documents to the secretariat:

- Identity document
- Signed liability form
- ASI K card or LKR Asi/Aci licence
- Basic sports medical certificate

6. TEAM CATEGORIES

THE 24 event will be divided into three categories: EK1, EK2 and EK3.
The criteria for the division of the categories will be described in the briefing.

7. WEIGHTS AND BALLASTS

Driver weight + ballast: **85 kg**

Each driver will be weighed at the end of each session. The limit available for karts is 30kg. For safety reasons, the minimum weight taken into account will be 55 kg. Drivers weighing less than this value, including their equipment, must inform the organisers, who will provide extra ballast. Extra ballast weights considered dangerous by the organisers are not permitted.

The weights available are:

- 2.5 kg: yellow
- 5 kg: red
- 10 kg: blue

In case of violation of the minimum weight, the team will be penalised as described in point 17 (Penalties).

8. CHECK IN PROCEDURE

Each team manager is obliged to report to the secretariat before the official start for acceptance and delivery of the necessary documents, see point 5

Any driver or team not in order with the necessary documents will not be allowed to take part in the race. If a driver deliberately decides to enter the track and take

part without having handed in and complied with the procedure, he will be responsible for his actions and the team will incur a penalty.

As soon as acceptance at the secretary's office has been completed, each team manager is obliged to go to the timing booth to collect the transponder and driver wristband chips.

For the collection a document will be required which will be handed back at the end of the race and when the transponder and chips are returned.

Each team will be responsible for installing the transponder in the slot provided on their number plate.

Loss and non-return of the transponder has a cost of € 250.00 plus VAT.

Loss and non-return of a chip has a cost of € 100.00 plus VAT.

9. BRIEFING E KARTING DRAW

The briefing will be mandatory for all team managers (penalty: relegation of 5 grid positions).

The briefing will last approximately 30 minutes, during which time the procedures for the event will be analysed.

Kart draw: the karts will be drawn manually.

The chassis number will be drawn, visible by a label placed at the rear of the kart, under the exhaust end. Each team must then install its own number plate on the drawn kart.

10. OFFICIAL FREE PRACTICE: 120 minutes

On Saturday 12 September, from 10 a.m. to 12 noon, official free practice will be scheduled. as described in point 3, in which each team will be able to participate. The kart used for the official free practice will be the kart that has been designated by drawing lots.

During the free practice it will be possible to :

- change tyre pressures
- change driver, without having to respect the minimum pit time, but still respecting a moderate pace to ensure total safety in all phases of driver change.
- the refuelling lane will be open (described in point 14 'Refuelling')
- the change option lane will be open, in order to request the kart change, respecting the procedure described in point 14 'Change Option'.

At the end of free practice all drivers will be obliged to return to the pit lane.
Driver change will be possible.

11. QUALIFYING : 10 minutes

At the end of official free practice, qualifying will take place.

Each team will have 10 minutes to set the best time. At the end of the qualifying session the starting grid for the race will be formed, based on the best time obtained in qualifying. There will be no driver change during the qualifying session.

At the end of the qualifying session, drivers will be obliged to return to the pits, following the procedure described in point 12.

12. STARTING GRID

The starting order will be determined by the result of the qualifying, basing the starting grid on the best time obtained. The race will be timed from the passage of the first kart at the start until the passage of one's own kart to the chequered flag. At the end of the qualifying session, all drivers of the session will be obliged to carry out the weigh-in procedures and once they have finished, the driver in charge of the start will position the kart on the starting grid according to the ranking order of the qualifying session.

At the end of the qualifying session the parc fermé regime will apply, therefore no intervention on the kart will be allowed.

Driver change between qualifying and start is not possible.

13. STARTING PROCEDURE

The starts of all races will be Launched Starts.

The organiser, following a decision of the stewards, has the right to change the starting procedure from "Launched Start" to "Standing Start" or "Launched Start on a Line" with "Slow" posters.

Each driver assigned by his team to the start must report to the parc fermé at least 10 minutes before the official start.

The start procedure starts as soon as the Race Director or his Deputy, or designated Starting Official, indicates with the green flag that the karts can take the start and leave the Parc Fermé (intended as track entrance). Once they have entered the track, the drivers are "under the orders of the Race Director" and may no longer receive any assistance. A driver who has not presented himself on time

to the Clerk of the Course's orders with his kart in working order may only leave the Gathering Area by order of the Clerk of the Course or the Official in charge.

The drivers, once out of the track entrance gate, will start the reconnaissance lap. During the reconnaissance lap each driver must maintain his grid position, should a driver occupy another driver's position without any right, he will receive a penalty at the discretion of the DDG.

If a driver stops for any reason during the formation lap, he will not be allowed to restart until he has been overtaken by the entire group. He will restart at the rear of the formation. If he attempts to start at the front of the group, the black flag will be shown and he will be excluded from the race.

It is forbidden to use any route other than the one used during the race to regain one's position. In case of rolling starts, the driver lagging behind will have the opportunity to regain his grid position only if this manoeuvre will not hinder the other drivers, and in any case before reaching the Red Line which will be materialised on the track, equipped with timing loops and indicated by the Race Director during the briefing. In the event of a standing start, the delayed driver will have the opportunity to regain his grid position until the red start light comes on.

If a driver is deemed to have been held up as a result of an error by another driver, the Clerk of the Course may either interrupt the formation lap and restart the Starting Procedure based on the original grid, or allow the held-up driver to regain his position.

Each circuit will have, on the starting straight, two 2 metres wide lanes delimited by white lines. These lanes will be painted from the start line to 110 metres before. A yellow line must be placed 25 m before the start line. For rolling starts, this yellow line will also be materialised by soft cones (1 cone on each side of the track).

The Race Directore will give the start signal as soon as he deems the formation satisfactory. (by switching off the traffic lights or by flag).

In the event of repeated false starts or incidents during the formation lap(s), the Clerk of the Course or the Judge of Fact may interrupt the start procedure by a red flag and inform the Stewards, who will be authorised to impose a penalty on the drivers concerned. A new procedure will start immediately or within 30 minutes, depending on the circumstances. The starting grid will be the same as the initial procedure. All drivers present in the start area or repair area before the

interruption of the procedure will be allowed to take the start of the new Formation Lap.

Any attempt to anticipate or delay the start and any kart leaving the track before the official start will be penalised.

Overtaking is permitted as soon as the race director makes the start official (i.e. lowering of the flag or turning off the lights)

An early start is considered to have occurred when a driver exits the channels and overtakes his opponent before the official start of the race director.

A driver who is not aligned in the channels at the start will receive a penalty. It will be the responsibility of the Race Director to judge such a manoeuvre and impose any penalties.

Once the start signal has been given, race conditions apply and, regardless of the kart's position on the track, it is forbidden to give it any assistance except to park in a safe place.

14. RACING RULES

Alignment test

In order to balance all the karts, alignment tests will be carried out before the event. A team of TBKART technicians will take care of probable interventions in order to ensure uniform performance.

Minimum number of pits

There is no minimum number of pits

Total pit time

The total pit time is intended on the race total.

The exit time will be under the complete management of the team, respecting the pit lane time window. At each pit lane passage, the pit time used will be cumulated and, at the end of the race, must have a minimum total of :

RACE	TOTAL PIT TIME
24H	90 MINUTES (5400 SECONDS)

Pit lane time window

Each pit lane passage must be made within a window of **between 60 seconds and 300 seconds**.

Each team, once the weigh-in, driver change and/or refuelling procedures have been carried out, will be able to decide its exit time in total autonomy, respecting the limits imposed by the time window. It is mandatory for each team to leave a passageway for the exit. Any team blocking or preventing another from exiting will incur a penalty.

Any non-respect of the min or max time in pit lane, not authorised by the organising and/or technical staff, will be considered penalty (see pt 17.20 and 17.21). In the case in which a team has been authorised by the organising and/or technical staff to exceed the maximum time spent in the pit lane, the team will be obliged to return immediately to the track as soon as all authorised operations have been completed. The time spent in the pit lane and not authorised, will not be counted in the total pit time and will result as lost race time.

Min and max track time

Minimum time on track: 10 minutes

The time is counted from the pit out antenna (i.e. the driver's entry onto the track) to the pit in antenna (i.e. the driver's entry into the pits.

There is no maximum time spent on the track.

Total min and max driving time

The min and max driving time is intended as the total driving time that a driver can or must drive.

The minimum total driving time of each driver is : one entry on the track

The maximum total driving time of each driver is : none

Min. and Max. time to use a kart

The min and max time of use of the same kart is intended as the total time of use of a kart that a team must respect.

The minimum total time of use of a kart is : 10 minutes

The maximum total time of use of a kart is : 4 hours

The time is considered from the passage of the driver to the pit out until the passage of the driver to the pit in, before the kart change.

Example :

the team performs a kart change and the driver pits out at 10:00am. The team will be able to make the kart change again by crossing the pit in line not earlier than 10:10:00 and will not be able to keep the kart not later than 13:59:59, crossing the pit in line.

Only for the first stint the official start time will be taken into account and not the pit out time.

Example :

If the race starts at 14:00:00, the team will not be able to pit and change kart before 14:10:00 (pit lane closed the first ten minutes of the race) and will not be able to keep the same kart after 17:59:59.

Return to the pits procedure

Each driver must keep a moderate pace as soon as he crosses the pit line. Any dangerous manoeuvre or contact with barriers will result in a penalty. On re-entry, the driver must follow the compulsory route and, having arrived at the weight check, will be obliged to carry out the weigh-in procedures. Once they have been carried out, the driver will have the option of moving either to the refuelling lane or to the driver change lane. Once the lane has been chosen, it is not possible to move. Any attempt to change lanes or to block operations is sanctioned with a penalty.

Refuelling

During the race and unofficial free practice the amount of petrol will be completely under the team's control and it will be up to the team to decide when to refuel and how much to refuel. Once at the refuelling area, the driver will be obliged to get out of the kart. Refuelling will be exclusively carried out by the technical staff. The refuelling area will be open :

During non-official free practice :

after 10 minutes of the start of the non-official free practice, until 10 minutes before the end of the non-official free practice.

During the race

after 10 minutes of the start of the race, until 10 minutes before the end of the race

Driver change

Compulsory at each passage in the pit lane. In case a kart change is necessary due to technical problems and/or force majeure, the organisation reserves the right not to oblige the driver change

Opening and closing pit lane

The pit lane will be opened ten minutes after the start of the race understood as the official start by timing. The opening of the pit lane means passing the pit antenna in no earlier than 10 minutes after the start of the race . Should a team re-enter the pit lane, passing the pit lane aerial at 10:00 minutes is not in penalty, should it pass the pit lane aerial at 9:59 minutes, it is in penalty (see pt 17)

The pit lane will be closed ten minutes before the end of the race understood as the official end by timing. The closing of the pit lane is understood as the passage over the pit antenna in no more than 10 minutes after the end of the race. Should a team re-enter the pit lane, passing the pit aerial at 10:00 minutes they are not in penalty, should they pass the pit aerial at 9:59 minutes they are in penalty (see pt 17)

Change Option V 2.0

The Change Option procedure allows individual teams to change their kart during the course of the event.

The Change Option procedure can be carried out in a time window structured as follows :

During the optional free practice : 10 minutes after the start of the optional free practice, until 10 minutes before the end of the optional free practice.

During free practice, the Change Option is optional and the maximum number of kart changes available for each team is **2**.

During the race phases: from the opening of the pit lane after 10 minutes of the start of the race, until the closure of the pit lane 10 minutes before the end of the race.

Example during the race phases :

race developed over a duration of 12:00:00 hours

opening Change Option procedure 0:00:10 hours from the start of the race

closing Change Option procedure: 11:50:00 hours from the start of the race

The structure of the Change Option in the race provides for a "window" of minimum and maximum kart changes that each team must comply with.

Min. number Change Option	Max. number Change Option
6	12

The Change Option mode provides that each team, at its complete discretion and respecting the time windows imposed by the regulations, may decide on a kart change. Once in the pit lane, the driver must :

1. Refuel with a full tank of fuel
2. Enter the lane reserved for the Change Option.
3. The change karts will be arranged in a single row
4. The driver will position the kart at the end of the single file.

5. The driver will get off the kart and will position himself on the first kart of the single file.
6. It will be driver's responsibility to move weights and table to the new kart.
7. Once the Change Option operation is completed, the driver will be obliged to move forward and leave the lane.

NOTE :

- non-compliance with the minimum or maximum number of Change Options results in a penalty. (see pt 17.39)
- The time used for this procedure (PIT IN - PIT OUT) will be added in the total pit time available for each team.

Example:

Total pit time available: 3600 seconds

Pit time used pre procedure: 540 seconds

Pit time used for the complete procedure: 120 seconds

Total pit time updated post procedure: $540 + 120 = 660$ seconds

- The kart will be supplied with a full tank of petrol

-The technical staff reserves the right to test and check the karts which will be placed at the end of the single row of change karts.

-The team once the change option has been made will be allowed to continue their race.

-The management of the change option will be at the complete discretion of the teams.

-In case of recalls, by the staff, for technical problems and/or repairs, not will be counted as change option.

-It is forbidden for any participant or manager to enter the change option lane.

Only the driver making the change option is allowed to enter the lane.

-In the event that, the team exceeds the maximum time in the pits for a delay due to procedures, the pit time will be accumulated in the total and not there will be penalties for the excess time taken by the technical staff.

Technical Service Recall

Should the technical staff deem it necessary to repair or replace a kart, they are entitled to recall the kart for technical assistance.

The procedure involves :

- The communication of the recall to the team manager by the organisation
- The display of the black flag with orange disc to the driver by the Race Director.
- From the moment the flag is shown, the driver has 4 laps to re-enter the race.

- The team will continue the race with the replacement kart until further notice from the technical staff.

If a team deliberately decides not to re-enter they will be disqualified from the event.

The technical assistance recall is a decision solely and exclusively of the technical staff, who certify the request with objective evidence.

The technical support recall does not count as a change option.

Repairs

Should a kart need repair and/or replacement, the technical staff will replace the kart and allow the team (including the same driver) to restart, following these procedures.

Should the kart stop on the circuit:

- The driver must put himself and the kart in a completely safe position and wait for the arrival of the technical staff.
- The technical staff will bring a spare kart on site in order to continue the race.
- It will be the driver's care and responsibility to place ballasts and transponders on the replacement kart.
- Once the operations have been completed, the driver may resume the race.
- As soon as the original kart is restored, the team must re-enter and resume their kart. The team has 4 laps to re-enter after official communication, if they fail to re-enter they will receive a penalty which, if repeated, may lead to disqualification.
- If the kart has serious problems and cannot be restored or takes a long time, the technical staff will inform the team that they must continue with the replacement kart.

In the event that the kart remains stationary on the circuit, the time elapsed until the restart is race time and therefore lost time will not be reassigned.

Should the kart return to the pit:

- The driver will position the kart following the instructions of the technical staff
- The driver will get into the kart indicated by the technical staff (can also be the same driver) and will resume the race normally.
- As soon as the original kart is reinstated, the team must return and resume their kart. The team has 4 laps to re-enter from the official communication, if they do not re-enter they will receive a penalty which, if repeated, may lead to disqualification.

-If the kart has serious problems and cannot be restored or takes a long time, the technical staff will inform the team that they must continue with the replacement kart.

Should the technical staff identify a problem during the pit stop :

- It will indicate to the driver the replacement kart with which he can resume the race normally
- As soon as the original kart is restored, the team must re-enter and resume their kart. The team has 4 laps to re-enter from the official communication, if they do not re-enter they will receive a penalty which, if repeated, may lead to disqualification.
- If the kart has serious problems and cannot be restored or takes a long time, the technical staff will inform the team that they must continue with the replacement kart.

In case of breakage, the technical staff has the faculty to evaluate after the restart the real conditions of the kart: if the technical staff should consider that the damage/problem has been caused by an improper use of the kart, penalties commensurate to the entity of the damage may be applied.

Pushing

Pushing between two or more karts is strictly forbidden throughout the circuit, and for all sessions. If a team is cautioned by the Race Director it will first receive a black and white flag warning. At the second warning a penalty of one lap will be entered directly into the timing system. It will be at the discretion of the Race Director to identify the team(s) to be penalised, and he will have the power to penalise both those committing the action and those subjected to it. **Pushing is defined as continuous, prolonged and intentional contact between two or more karts that can lead to an advantage.**

Changing tyre pressures

Teams in each category will be allowed to vary tyre pressure, according to a range set by the technical staff. An area will be set up where these operations can be completed. Pressure changes are permitted throughout the entire race. Inflation and/or deflation will be the responsibility of each team, which will have to carry out its own checks with its own instruments.

Tyre change

During the course of the race, a front tyre change is scheduled for all karts. The modalities and timing will be described in the briefing, unless otherwise stipulated by the organising staff during the race.

Air compressors with tanks are prohibited.

15. NEUTRALISATION OF A RACE OR SESSION (SAFETY KART)

In the event of an accident or danger, the track marshal will display the yellow flag directly from his position.

When the yellow flag is displayed, drivers must:

- reduce speed
- not overtake
- be prepared to change direction or stop (a marshal may be engaged in a recovery operation)

Overtaking under a yellow flag will result in a penalty. Overtaking is not permitted from the position where the first yellow flag is waved until the position where the track is indicated as clear by a green flag.

In case of accident or heavy rain or for the recovery of a kart, the entry of the SAFETY KART can be arranged. All karts must slow down and follow the Safety Kart.

The Safety Kart will come out of the pits and will position itself in front of the first kart arriving, giving priority to safety. Drivers are obliged to follow the Safety Kart until the GREEN flag is shown by the Race Director on the finish line.

It will be the Race Director's responsibility to indicate the last lap to be used by the Safety Kart. Once the Safety Kart has returned to the pits, it will be up to the leader of the group to decide the right moment for the restart, and overtaking will be allowed only after the finish line.

The race officially restarts after crossing the finish line. During Safety karting the Pit-Lane will remain closed. From the time the sign is displayed at the finish line by the race director, and from the time of the official announcement by the timekeeper, any re-entry into the pit lane will be considered a penalty. The penalty will be assessed according to the duration of the Safety Kart. During Safety karting overtaking is not allowed, not even for splitting.

16. SUSPENSION OF A RACE OR SESSION

If it becomes necessary to suspend practice and/or the race due to :

- a blockage caused by an accident
- adverse weather conditions

-other factors making it dangerous to continue

the Race Director will order a red flag to be displayed at the Finish Line.

At the same time red flags will be displayed at the marshals' stations equipped with such flags. The decision to suspend practice and/or the race can only be taken by the Race Director.

If the signal is given to suspend track activity:

During qualifying : all karts must immediately reduce speed and stop in the position indicated by the Race Director, and all karts abandoned on the track must be removed; practice will be resumed as soon as possible to respect the original programme.

During the race

all karts must immediately reduce speed and stop in the position indicated by the race director.

- the ranking of the race will correspond to the ranking at the end of the lap preceding the one during which the stop signal was given.
- karts or emergency vehicles may be on the track,
- the circuit may be totally blocked due to an accident,
- weather conditions may have made it impossible to drive at high speed on the circuit

The procedure to be followed varies according to the percentage of the race completed by the leader before the stop signal was given:

If the race is stopped when at least 75% (rounded up to the next lap) of the scheduled duration has been completed, the race can be considered as finished. All pits and the total pit time will be equated directly from the timing system, according to the following procedure :

- The total time of each team will be implemented until the minimum total time, indicated in the regulations under point 12, is reached.
- The added time will be converted into laps based on the average time of the last 10 passages of each team, before the red flag stops.
- Any seconds in excess of the conversion will be entered directly into the timing system as a penalty,

17. PENALTIES

Penalties are intended as track infringements, rule infractions or irregularities in procedures.

Any written or unwritten penalty in the regulations is at the complete discretion of the Race Director who may impose, increase or decrease the size of the penalty. **Any penalty will be added to the total pit time that the team will have to respect. It will be up to the team to calculate its total time according to the penalties received.**

SPORTING PENALTIES 17.a

17.a1 Any misconduct or unsportsmanlike behaviour on or off the track by drivers and/or any offence reported or not reported in these regulations will be punished with a time penalty, a grid position penalty or disqualification from the event.

17.a2 Any aggravation or repetition of misconduct and unsportsmanlike behaviour may result in the driver's exclusion from the event.

17.a3 Any form of unsportsmanlike behaviour will be severely punished with the removal of the person involved.

17.a4 Any disrespectful and/or provocative attitude or behaviour towards the organisation, staff or race management will be punished with the removal of the person and/or disqualification.

17.a5 If the penalty is not served during the race, the penalty will be applied to the final classification.

17.a6 If the penalty cannot be served and reaches a time that exceeds the lap time, this penalty will be applied to the final classification and converted into laps, using the best lap of the race as a parameter and rounded up.

TRACK INFRINGEMENTS 17.b

17.b1 Cutting the track: If a driver deliberately cuts a section of the circuit, they will be immediately disqualified. In the event of cutting the track due to force majeure (wet track conditions, contact, etc.), the race director will assess any penalties.

17.b2 Wrong track direction: If a driver drives in the opposite direction to the direction of travel, they will be immediately disqualified.

17.b3 Any driver who slows down significantly, creates dangerous situations or stops on the track is punishable by the DDG with a penalty in seconds, up to the cancellation of all times in the qualifying session.

17.b4 Any driver who improves their lap time while passing through a sector under yellow flag conditions or in the event of a full course yellow will be penalised by the DDG with a time penalty, up to and including the cancellation of all times from the qualifying session.

17.b5 Drivers who are not aligned in the channels at the start will receive:

- a 3-second penalty if 2 wheels are outside the channels
- a 10-second penalty if 4 wheels are outside the channels

17.b6 Drivers who leave the channels before the official start will receive a 10-second penalty for an early start.

17.b7 Any driver who fails to maintain the minimum distance at the start (contact between their front bumper and the rear bumper of the car in front) will receive a 3-second penalty.

17.b8 For minor contact during the race, the black and white flag will be used at the discretion of the race director. At the second flag, an automatic 10-second penalty will be imposed. For serious contact, the penalty imposed will be 10 seconds. The race director reserves the right to assess the extent of the contact and to impose a penalty appropriate to the type of contact and the damage caused.

17.b9 A driver may not change direction several times to defend his position. A driver who does so will first be warned with a white/black flag, and on the second occasion will receive a 10-second penalty.

17.b10 A driver who realises that they have gained a position unfairly has the option of returning the position during the current lap without incurring penalties. This manoeuvre is only permitted if the driver who was overtaken has not lost further positions after the contact.

17.b11 The driver in front has the right of way. Two drivers who are side by side both have the right of way.

17.b12 A driver who pushes another driver while braking or cornering in order to widen the trajectory of the driver in front will receive a 5-second penalty. The race director has the right to assess the damage caused and increase the penalty.

17.b13 A driver who overtakes by hitting the opponent at the rear of the kart is committing an illegal overtaking manoeuvre.

17.b14 If, after completing an overtaking manoeuvre on the exit of a corner, a driver is on the inside and deliberately forces the driver on the outside off the track, the driver on the inside is committing an illegal manoeuvre.

17.b15 If, during an overtaking manoeuvre, the driver who is overtaking comes into contact with and obstructs the normal path/apex of the driver who is being overtaken, the manoeuvre will be noted by the Race Director. In the situation described, a penalty for 'bad overtaking manoeuvre' may be applied.

17.b16 If, during an overtaking manoeuvre, the driver overtaking at the exit of a corner finds himself alongside the driver being overtaken and intentionally forces the driver outside the track limits and/or obstructs the natural path of his kart, this manoeuvre will be noted by the Race Director. In the situation described, a penalty for 'bad overtaking manoeuvre' may be applied.

17.b17 Dangerous driving: it is strictly forbidden to leave the kart seat during one's driving turn: 30-second penalty.

17.b18 In case of failure to comply with SAFETY KART procedures, the driver will be penalised at the discretion of the race director.

WEIGHT INFRINGEMENTS 17.c

17.c1 In the event of a minimum weight infringement, the pilot will be penalised with:

from 0,001 kg to 1,000 kg	10 seconds
from 1,001 kg to 2,000 kg	20 seconds
from 2,001 kg to 3,000 kg	30 seconds

and so on

17.c2 If the minimum weight violation is committed during the qualifying session, the penalty will be the cancellation of the time.

17.c3 If the minimum weight violation is committed during the weighing procedure at the end of the race, the penalty will be applied in the final classification.

17.c4 If a driver leaves the designated area without completing the weighing procedure, the team will be penalised with two penalty laps.

17.c5 In the event of returning to the pits at an inappropriate speed and in the event of a violent collision with the barriers at the pit entrance, the driver will receive a 10-second penalty.

RACE RULES VIOLATIONS 17.d

17.d1 Returning to the pits when the pit lane is closed will result in a 30-second penalty and the pit time will be counted. If a team returns to the pit lane when it is closed and refuels, it will receive a 30-second penalty and the pit time will not be counted in the total time. In the event of special conditions such as Safety Kart and Slow, the penalty imposed will be increased at the discretion of the DDG.

17.d2 Failure to comply with the minimum pit time will result in a 10-second penalty plus the time remaining to reach 60 seconds.

17.d3 Failure to comply with the maximum pit time will result in a 10-second penalty plus the time exceeding 330 seconds.

17.d4 Failure to comply with the total pit time (including penalties) will result in a penalty of 30 seconds plus the time remaining to reach the minimum total.

17.d5 Failure to change drivers will result in a penalty of 2 laps.

17.d6 Failure to comply with the minimum number of driving stints will result in a penalty of 5 laps.

17.d7 Failure to comply with the minimum or maximum time of use of the same kart will result in a penalty of:

10 seconds for every minute less than the minimum time of use of the kart

10 seconds for every minute more than the maximum time of use of the kart

Time is considered to be in excess: from 00:000 to 59:999 is considered 1 minute. From 01:00:000 to 01:59:999 is considered 2 minutes. And so on

17.d8 Failure to comply with the minimum time on the track will result in a 30-second penalty.

17.d9 Any team that blocks pit lane exit operations will receive a 30-second penalty.

17.d10 Any attempt to change lanes (refuelling - driver change - change option) that causes impediments during pit procedures will be penalised with a 10-second penalty.

17.d11 Any attempt to change karts, whether deliberate or not, contrary to the instructions given by the staff in the Change Option lane, will result in a 30-second penalty and the display of the black flag with an orange disc by the

Race Director, forcing the driver to return to the pits and change karts again. The subsequent mandatory kart change will not be counted towards the total number of Change Options.

Should a driver be forced to take a kart other than the one indicated by the staff due to objective problems or impediments, the race director reserves the right to consider any exceptions.

17.d12 Failure to comply with the minimum or maximum number of Change Options will result in a penalty of 5 laps for each Change Option missing from the minimum number of Change Options or exceeding the maximum number of Change Options.

Example 1: If a team has made 1 Change Option at the end of the race, it will receive a penalty of 5 laps in the timing system (as one Change Option is missing to reach the minimum number of 2).

Example 2: If a team has made 8 Change Options at the end of the race, it will receive a 10-lap penalty in the timing system (as two Change Options exceed the maximum number allowed of 6).

18. CLAIMS

Complaints submitted to the Adjudicating Board in **writing and signed with the €50 deposit.**

Any refusal will be final.

Complaints may be lodged throughout the duration of the race and in any case no later than 10 minutes after the chequered flag. After that no protest will be considered and the classification will be frozen. It is possible to lodge a protest by submitting video evidence in your possession to the panel of judges, highlighting the offending stage(s).

The complaint procedure is as follows :

- Go to the secretariat and request the appropriate form and pay the deposit.
- Fill in the form in all its fields.
- Select the highlights of any video evidence in your possession to hand over to the DS.
- The DS will make his assessment.
- The irrevocable decision will be published
- If the complaint is upheld, the deposit will be returned, if the complaint is rejected, the deposit will not be returned.

19. RACE DIRECTOR AND SAFETY COMMISSION

Each event will be directed by a Safety Commission consisting of a race director, a sports director and two staff members. The race staff also includes marshals in the parc ferme dedicated to weight control and other activities.

Any penalty or offence may be reviewed by the Safety Commission and at its sole discretion.

20. EVENT RANKING

The winner of the event will be the team which, at the end of the last hour of the race, has completed the most laps during the race. The chequered flag will be shown as soon as the leading team crosses the finish line any time after the race time has expired.

Example (of a 24-hour race): If the team leader crosses the finish line at 23.59.59 seconds, it will not receive the chequered flag and will therefore have to finish the last lap. Should the leading team cross the finish line at 24.00.01, it will receive the chequered flag and the race will be finished.

In case there are two or more teams with the same number of completed laps, an absolute ranking will be generated considering the time gaps between them.

21. AWARDS

An award ceremony will be held at the end of the event. Prizes will be awarded in order :

- Author Absolute Pole Position
- Absolute fastest lap author

- 1st - 2nd - 3rd classified overall ranking
- 1st - 2nd - 3rd classified Ek1
- 1st - 2nd - 3rd classified EK2
- 1st - 2nd - 3rd classified EK3

Each team and driver is obliged to present themselves at the award ceremony of the event. A team that does not present itself at the ceremony is not entitled to collect the prize afterwards.

Out of respect for the organisation, and for all participants, it is strictly forbidden to disregard the prize-giving procedure. Unauthorised actions may lead to exclusion from the championship. Each driver is obliged to present himself/herself in his/her technical clothing.

22. PRIZE

The overall ranking winning team of THE24 2026, will receive: a prize pool of **€ 10000.00**

The prize pool is considered to be gross of taxes to be paid by the organiser when the prize is paid out.

The procedure takes approximately 30 days from the end of the event.

The prize can be converted into a voucher that can be used in future activities. Prizes cannot be combined with other already active promotions.

23. FILMING AND PUBLICATION OF PHOTOS AND VIDEOS

During all events, including the final award ceremony, video footage, photos and live streaming will be taken. Each individual participant, by accepting the regulations, gives his or her consent to the promotional use of the material produced, by IRK Promotion.

24. ON-BOARD FILMING

You are allowed to use the video footage in your possession and exclusively produced by the on board video camera, when claiming (see pt. 18 of the RPG). It is not allowed to install fixed media on one's own kart because they would hinder all procedures of eventual technical assistance and/or change option.

25. TELEMETRY

The use of own telemetry on the kart is permitted.
It is not permitted to install fixed mounts on one's own kart because they would hinder all procedures for any technical assistance and/or change options.

26. BRAND AND LOGO DISPLAY

All brands and logos that do not comply with our activity or are displayed without the organisation's authorisation are strictly prohibited. The organisation reserves the right to remove, obscure and/or prohibit the promotion and display of non-compliant trademarks or logos.

***The race direction and IRK Promotion organization reserve the right to consider any special or miscellaneous exceptions.**

THESE REGULATIONS ARE ACCEPTED FROM THE MOMENT PARTICIPATION IS ENTERED VIA THE SPECIFIC FORM ON www.irkpromotion.com
